

## Involving Parents and Carers

We have been continuing our learning about people who help us within our community. This week we had a visit from the school petrol person (lollipop lady). She spoke about how she makes sure children and their families are safe when they cross the road near our school. She reminded the children about not

riding their scooter or bike when crossing the road. She was brilliant! She knew most of the children by name and she expressed how sensible the children are when crossing the road with their grown up.

This week we have also been thinking what a challenge is and what to do if we find something is difficult. The children have been thinking about 'Don't give up! Keep on trying'.

It has been wonderful to see the children's confidence and independence grow over the past few weeks. Their learning has come on so far and their friendships are starting to grow.

Maths games to try at home. Challenge the children to estimate how many and then count. Start with numbers to 5 and then to 10.

[Learn to Count up to 10 with Underwater Counting Maths Game \(topmarks.co.uk\)](https://www.topmarks.co.uk/learning-aids/number-counting/underwater-counting-maths-game)
