

Hawkeye

The heroic Hawkeye has been waiting and watching as you vanquish the mighty heroes with your mathematical prowess.

He is here to smite you down with a multitude of number bonds to 100!

Hawkeye is astounded by your incredible number bonds knowledge! He has a few last problems to try and stop you...

1. A recipe needs 100g of sugar. Clint has measured 42g. How much more sugar does he need? g
2. Natasha got £100 for her birthday. She spent £64 on clothes. How much money does she have left? £
3. Steve is collecting football stickers. There are 100 to collect. So far he has collected 86 different stickers; how many more does he need to complete his collection? stickers.
4. A bottle holds 500ml. If Peter drinks 96ml, how much is left in the bottle? ml
5. There are 100 years in a century. In 1978, how many years were there until the next century? years
