

20<sup>th</sup> April 2020

Dear Parents/ Carers,

We hope that you and your family are well and have had a restful Easter break. Despite the pressures home learning can put on families, we were pleased to hear how well you have done with your children during this challenging time. The staff miss the children and have valued speaking to them over the phone.

We have put together some ideas for home learning on our school website. As priority learning for Key stage one and two, there are grids to support outdoor and indoor learning experiences. Each grid provides ten activities to choose from over the next two weeks and will be updated fortnightly. The idea is that you pick two activities a day, one from each grid. To support children with their daily maths and reading, we have also provided a list of 'online' and 'off line' activities you could access for each key stage. Parental guidance for reading has been provided to support your child in developing inference/ comprehension skills.

In addition to the above, we have provided and will update an optional additional list of online learning sites that can assist you with other subject areas that you might wish to explore with your child.

If your child is struggling with activities or needs further challenges, feel free to explore activities from another year group.

Please also note that Mrs Shah has created a Special Educational Needs and Disabilities (SEND) home learning area which has some useful guidance, resources and strategies that might be of value to you.

Please stay safe and well and all staff are looking forward to welcoming your children back once this difficult period is over.

Kind regards

Key Stage One and Two teams
