The SEND Code of Practice (2015) says we must:

- Have regard to the principles underpinning the code of practice to ensure the views, wishes and feelings of the child or young person, and the child's parents, are central to achieving the best possible educational and other outcomes. (1.1)
- Use our best endeavours to make sure that a child with SEN gets the support they require.
- Appoint a SENCO who must be a qualified teacher working at the school. If required, they must achieve the National Award for Special Educational Needs Co-ordination within three years of appointment. (This does not apply to 16 to 19 academies.)
- Take steps to ensure that children with medical conditions get the support required to meet those needs. (5.11 and 6.11)
- Publish and update at least annually our SEN information report. (6.79)
- Publish our arrangements for admission for disabled children, the reasonable adjustments being made to prevent disabled children from being treated less favourably than others; the facilities provided to enable access to the school for disabled children and our accessibility plan showing how we plan to improve access over time.
- Co-operate with the local authority in the education, health and care plan review process (6.56) and in reviewing the provision that is available locally (Chapter 3) and in developing the Local Offer.

1. We will make high quality provision that meets the needs of children and young people with SEND through:

- High quality teaching that is differentiated and personalised. (6.37)
- Fully including children and young people and their families in the life of the school.
- Responding to the particular needs of children and young people with SEND in specific circumstances (10.0), including children looked after.
- Having a clear approach to identifying those who require SEN Support at the earliest point. (6.14)
- Using a graduated approach, in the form of a four part cycle of assess, plan, do and review, through which decisions and actions are made, revisited, refined and revised. (6.44)
- Removing barriers to learning and putting effective SEN provision in place. (6.44)
- Evidencing the use of reasonable adjustments, ensuring access to the curriculum, written word and learning environment. (1.34)
- Using provision mapping and management to maintain an overview of the programmes and interventions used with different groups of pupils, providing a basis for monitoring. (6.76 and 6.77)
- Ensuring the SENCO, working with senior leaders and the governing body, determines the strategic development of SEN policy and provision. (6.87)
- Evaluating the effectiveness of special educational provision, through normal school improvement systems. (4.32)
- Strategically planning professional development to secure enhanced expertise for all staff working regularly with children and young people. (4.32)
